NASHVILLE -- The Tennessee Department of Labor and Workforce Development today announced that the U.S. Department of Labor has approved a petition for Trade Adjustment Assistance (TAA) for Telex Communications, Inc. The petition covers all workers of the company in Sevierville who produced communications equipment.

Trade Adjustment Assistance is a program administered in Tennessee for the U.S. Department of Labor (USDOL) by the Tennessee Department of Labor and Workforce Development. The program offers assistance to workers whose jobs have been adversely affected by imports from foreign competitors. The certification by the USDOL applies to layoffs, which began on July 24, 1999, and will remain in effect until November 13, 2002, when the petition expires.

Under the provisions of the law, TRA allows for retraining while workers are still receiving regular unemployment insurance benefits. Two separate 26-week periods of trade benefits may be obtained for workers while enrolled in approved training after regular unemployment insurance benefits have been exhausted. Workers who would not benefit from retraining may receive only one 26-week period of trade benefit payments. The program also provides allowances for attempting to secure new employment in other areas and relocating to the new place of employment. Specific instructions will be provided to effected workers through their local Labor and Workforce Development office.

Claims for the assistance will be taken on Monday, December 18, from 1:00 p.m. to 3:30 p.m., and on Tuesday, December 19, 2000, from 8:30 a.m. to 1:30 p.m. at the Sevierville Courthouse, 3rd Floor Conference Room, 125 Court Avenue in Sevierville. The Department of Labor and Workforce Development has sent notices to former Telex Communications, Inc. employees informing them when they are scheduled to report.
